

READY FOR SOMETHING BIGGER?

LexisNexis® Risk Solutions uses Big Data technology to bring clarity to information. We love connecting more dots in smarter ways ... so our customers can make better decisions in a world of hidden risks and opportunities.

Join Us If You're Passionate About:

Leveraging the power of data, analytics and technology to deliver actionable insights.

- Combining vast data resources with deep expertise
- Applying patented linking technology with supercomputing speed

Managing risks and increasing opportunities for customers of all kinds.

- Clarifying identities
- Streamlining workflows

Helping people in government do their best work for the common good.

- Combating identity fraud
- Helping keep communities safe

Connecting patients, doctors and health care systems in meaningful ways.

- Fighting fraud, waste and abuse
- Powering clinical insights

Challenging the status quo in the insurance industry and improving outcomes.

- Enabling insurers to make accurate decisions
- Strengthening customer relationships

- We serve **customers in 139 countries**, including top banks, insurance companies and government agencies.
- We handle up to **100 million records per hour** with our HPCC Systems® Big Data processing platform.
- Our linking technology is **99.99% accurate** at finding patterns and hidden relationships in disparate data.
